Forecast for Friday 01 Jul 2022

Weather: Patchy low cloud across the summits in the early hours of the morning, slowly lifting after dawn. Remaining cloudy through much of the morning with rain showers developing across the area. Showers may be heavy at times and there is a low risk of thunder. Some brief sunny spells are possible during the afternoon before showers ease by evening. Feeling cooler than yesterday.

Chance of cloud-free hill tops above 600m: 50% increasing to 90%.

Low cloud and visibility: Poor visibility with low cloud base 400-500m over summits at first, lifting above summits by mid-morning. Good visibility for the remainder of the day, however dropping quickly to moderate to poor in heavy showers, with cloud bases briefly lowering to summits.

Meteorologist's View

Heavy showers may lead to quick deteriorations in visibility and slippery conditions underfoot. Strong sunshine is also possible in any prolonged cloud breaks, UV protection is advised.

Recent rainfall: measured at Cat & Fiddle: altitude 511m
